ONE YEAR FOR FIFTY CENTS.

TEN WEEKS, TEN CENTS.

By Victor L. Berger.

HERE is again a "general strike" on in Italy-as the cable despatches report. And the reason for it is this: On several occasions in the ast, the police and the miliof Italy have used their arms in a most brutal manner. The General Committee of the trades unions ("Syndicates") in Italy proposed to answer this behavior of the authorities by a strike," and sent out a referendum to the "central bodies" for that

The referendum of "central bodies" decided by a vote of 34 against 15 not to have a "general strike." Whereupon the entire General Committee of the Italian syndicates (trades unions) resigned. So there is no doubt that the strike in Italy is not a "general" strike.

And this is not the strike we are going to discuss.

The queerest strike reported from Italy is — a parliamentary strike of Socialists. The despatches from Rome state that all the Socialist deputies in the Italian parliament have resigned their seats because the Sonnino ministry has refused to accept their proposition forbidding the military and the police the use of arms in case of strikes. The proposition was, no doubt, fair and timely.

But we are a a loss to comprehend the reason for the resignation of our comrades. The resignation of the Socialists does not at all cripple the Italian parliament, since it can go on with its husiness without the Socialists. On the other hand the Somino ministry was dependent on Socialist votes for its existence, as we understand, Therefore it would have been a much simpler way to vote against the ministry and thus bring about its downfall—if not on this measure where the ministry had the support of all the reactionary elements, then on some other measure in the near future.

We shall have to wait for further news to-understand this step. And for the enlightenment of such of our readers, as are not acquainted with the Socialist situation in Italy, we will give a little account of the parties there.

In Italy, until of late, there were two great factions of the Socialist party. One of these was the Reformists led by Turati, Prampolini and Bissolati, who believe in gradual and continuous progress. The other was the so-called Revolutionary faction, led by Enrico Ferri, virtually also believing in the same thing and in a good many revolutionary phrases besides

At the last congress of the Italian Socialists in Bologna, in 1904, the revolutionary wing under the leadership of Enrico Ferri won out, chiefly through the help of the Syndicates, as the trades unionists of Italy are called. Upon the urgent entreaties of Enrico Ferri, a resolution was then passed, strictly forbidding any Italian Socialist deputy to vote for or with a bourgeios ministry. Turati, who disagreed, re-

yet the ink was hardly dry on that resolution, when upon the request of the same Enrico Ferri all the Italian Socialist deputies (Reformists and Revolutionists) voted in support of the conservative in opposition to the wording and the Sonnino ministry,—directly spirit of the Bologna resolution. The Socialist members of the Italian Parliament were therefore severely condemned by the National Executive Board of Italy, which contains four "revolutionary" Syndicalists (trades unionists) among its members. In fact the majority of the board had asked the deputies to resign their seats. This was the situation until about three or four weeks ago.

Then came the strikes.

To understand this still better we must know that the revolutionary wing of the Socialist party in Italy, since the party convention at Bologna, has undergone further "developments." The Revolutionists have split into the Integralists, led by Enrico Ferri, Cambrini and Morgari, and the Syndicalists, led by Labriola, Mocchi and Leone.

While the Integralists do not in any way, neither in principle nor in tactics, differ now from the Reformists, except that they have different persons for their leaders—the Syndicalists are the "real revolutionary stuff." It is true, they helped Ferri to down Turati in Bologna, but now they are using the same phrases that downed Turati and his crowd against Ferri and his followers.

A good many of the "Syndicalists" do not believe in the ballot box at all. Others want to use the parliament simply as a way to get "more resonance," that is, to speak more effectively to the people. They hold to the strict wording of the platform that there is no point of interest in common between the bourgeois and the proletariat and that there can be none. Therefore they say parliamentarism which in itself means compromise on every measure before the house, is a snare and a delusion to conceal and weaken the class struggle. And they have reduced the class-conscious, uncompromising, revolutionary formula to-"direct action" so-called.

And it is all very simple. The Syndicalists say, there is the bourgeois on the one hand and on the other hand there is the proletariat. These two classes are in deadly combat. All attempts to bridge over their differences are foolish or treasonable. There is only one way to end the struggle and that is by expropriating the expropriators. And the sooner that is done, the better. And therefore there can be only one action, "the direct action," the general strike. All party business, as far as the proletariat is concerned, can have only the sole meaning of preparing for that "direct action," for the general strike. And the general strike will bring about the catastrophe and the mille-

The queerest part of these Italian Syndicalists (trades unionists) is that their spokesmen, or almost all of them, come from southern Italy where there are no trades unions, except those which exist on paper only. And these trades unions are exclusively represented by lawyers and school-teachers.

As we remarked before, four of these Syndicalists are on the Executive Board of the Italian Socialist party. So we do not know whether the pressure from that side may not have had something to do with the resignation of all the Italian Socialist members of parliament, fully as much perhaps as the refusal of the Socialist farment, fully as much perhaps as the refusal of the Sonnino ministry to accept a bill in regard to the use of the military in time of

Until we learn more about the matter, we shall be a little sceptical in regard to the wisdom of this parliamentary strike. Especially as long as it was within the power of the deputies to bring about the downfall of the Sonnino ministry on this or some other measure in the future.

The elections in France, if is reported, have resulted in a gain for the "Government Party." By the Government Party is meant the "Blos." or the coalition of different parties of the Left — so called because their seats occupy the left side of the Chamber. These of late years have usually formed the majority in the Chamber of Deputies. But not always, nor under all cucumstances. This was proved by the fall of the Rouvier ministry, when the Socialist and some Socialist-Radicals voted with the Conservatives. The result was the formation of a radical ministry, which servatives. The result was the formation of a radical ministry, which the Socialists ever since have supported,—Aristide Briand, one of the Socialist Deputies, even becoming a member of the present govern-

of groups and parties.

Beginning from the left, there are first the Socialists, formerly consicting of two parties, but mow united. There are, however, a number of "Independent" Socialists, who did not join the new united party, and to these has recently been added Aristide Briand, who with Millerand has just been re-elected.

Then follow the Socialist-Radicals, in the American papers incorrectly terried Radical-Socialists. These are not Collectivists and have no right to call themselves Socialists. They hold about the same position as Hearst in this country, or the National Socialists in Germany. After these come the Radicals,—who are hourgeois Demo-

On sober second thought the peoole of the lecherous city of New York are beginning to admit that they did Maxim Gorky and his wife a shameful wrong. Even Harper's Weekly has come to Gorky's defense editorially.

Bishop McCahe's bitter attack on he trade unions, because the printers in the Methodist Book Concern are demanding more humane daily hours of labor, has forced the Typo-graphical Union officials to acquaint the ministers of that denomination with some things about the business being done by the Book Concern that are not exactly creditable to an institution so closely allied with a great religious move-

Eaton and Mains, to the fact by letter, they made no reply; and so on. Here's a sample of one of the cocktail adertisements:

"Ever get a really Good Cocktail in a private house? Fault lies in the mixing. The amateur cocktail mixer is a greater bore than the amateur cook. If you to serve a cocktail that makes a man smack his lips in delight-don't mix it yourself. - L --- Cocktails (ready to ice) never vary.'

The idea of a letter of introduction was, to be sure, incongruous with that of making a tonr of investigation, and though the few courteous lines I presented to the proprietor of the mill might have procured me hospitality under his own roof, they sent me as an outcast from his factory gates. "It was of no interest to him that a piece should be written about his help." This he made quite clear, and, having done so, he closed the door peremptorily, leaving me without to meditate upon some more successful method of obtaining entrance to the factories I had determined to visit.

Profiting by the presence at Birmingham of several ladies who had been more or less active in passing the only laws which place any restraint upon Alabama manufacturers, I called upon them before preceeding to Anniston, and gathered from their conversation certain facts regarding the situation in

Against these stand the "Blue" Republicans, who call themselves Progressists, but in reality are reactionary bourgeois. And then the "Right"—so called because their seats are on the right side of the chamber—people who at heart are monarchists, but who recognize the Republic as a necessity under the present canditions. The "Right" consists of Clericals, Monarchists of different kinds, remnants of the "nobility" and moreover "Nationalists," a mixture of men of all varieties, Anti-Semites and cranks of every type.

According to the despatches, the "Bloe" has gained. This is of great importance, for it shows that France approves the Anti-Clerical stand of the government and is in accord with the separation of church and state. This question is thus practically settled.

It is now an established fact, that the Roman-Catholic priests can get together crowds of men and raise rows, but are powerless when the French people finally speak. These elections mean that a "Center" party of some importance, such as exists in Germany, is impossible in France.

As in the number of Cariality of the state of the Anti-Clerical state of the state of th

As to the number of Socialists elected, we have as yet no information. It is not clear whether the despatches reckon them in the opposition, or whether they are numbered among the supporters of the government, as they really are upon the question of the separation of church and state. We know that Guesde is a deputy again and that Joures was elected in Carmanx, his former direct, although at first his election was considered doubtful. Milerard was also re-elected in his former Paris district, which shows that his opponent, the Socialist party candidate Paul Lafargue was descard. So much is known, that the Socialist vote rose from Soc. 500 to 100 million.

What interests us most of all—to learn what groups of the "Left" have been the chief gainers—is not yet known. The growth of the government party may perhaps have one very unpleasant result. That is, if the Radicals and the Socialist-Radicals have a majority by themselves, they will no longer need the help of the Socialists.

Up to this time, no Radical government of Md exist in France without support from the Socialists. There build be a Republican government, of course; the Radicals could unite with the Progressists and thrust the Socialists aside. This havever could only be accomplished at the price of the radical policy or at least with the disarrangement of their program.

For lawless-ness always begets lawlessness.

In 1688 a bill of rights was for the first time set up in England, as a shield for the workers against the shirkers-in-power. In this country nearly every state constitution starts out with a declaration of rights as its first article, modeled after the Declaration of Independence. Athough Labor did not write these declarations, it is looking to the day when it will have the chance to write many amendments to them. And it will see that day, and that before long, provided the capitalist class does not pile on the last straw and provoke a recourse to passion beside which the French Revolution will seem mild indeed.

What can one man do against all the depressing, discouraging suc-cess of exploitation and robbery, carried on by capitalism, in this country? Every one can do some thing. Take the one thing that Upton Sinclair has done, for instance

Sinclair is a modest Socialist, a ollege man, it is true, but one who had to live in attics, as he has confessed, and who has had to rear his little family under the great familieshadow that hangs over all wage workers. He lived the life of an employe at the packing house district in Chicago and then wrote a book The Social-Democrats tried to give it as widespread a circulation as possible, but the merit of the book soon relieved them of that necessity and now it is the talk of the country.

Even Throdore Roosevelt, president of the United States, hashelped to popularise it. He gave it out that a representative of the government would be sent to Chicago to investigate into the truth of the book and that if it were not found do not have to submit to mucka leading American industry, but that if the story was found true, it would be the meat lords who would be excoriated. Did ever an author receive such a fine boost for his book! More people are reading "The Jungle" now than ever, as a consequence.

We cannot all of us write books like "The Jungle," but almost everyone can do something, in some way, to protest against wrong conditions and wrong systems. And more would do so were it not for slothfulness.

Now the Western Federation of Miners outrage is getting into the daily papers via special corres-pondents, which is a good sign. In fact, everything looks hopeful for Mover and Haywood when the courts get into action. A large sum of money has been raised for the defense, able lawyers secured, and even out West where the mine owners actually own the judges, these same judges cannot help but squirm when the lime-light of publicity is turned on them.

It is H-ll to be poor in many, many ways. IV.

The Social-Democratic program is not a theory imposed upon soiety for its acceptance or rejection. It is but the interpretation of what is, sooner or later, inevitable. Capi-talism is already struggling to its destruction. It is no longer com-petent to organize or administer the work of the world or even to pre-serve itself. The captains of industry are appalled at their own ment therefore is a world move inability to control or direct the certainty of employment, the universal capitalis determination to break down the univ of labor in

the university, and public school, the pulpit and the press, the arts and literatures. By making these economically dependent upon itself, it has brought all the forms of public teaching into servile submission to its own interests.

Our political institutions are also being used as the destroyers of that individual property upon which all liberty and opportunity depend. The promise of economic independately organizing the nation for the common good of all its citizens. It is the first time that the mind of man has ever been directed toward

It means that the tools of employment shall belong to their creators and users; that all production shall be for the direct se of the producers; that the making of goods for profit shall come to an end; that we shall all be work ers together, and that opportunities chall be open and equal to all men.

pledges itself to watch and work in both the economic and political struggle for each successive immediate interest of the working class, for shortened days of labor and increases of wages; for the portation, communication and exchange; for the graduated taxation of income, inheritance, and of franchise and land values, the proceeds to be applied to the public employment and bettering the ditions of the worker's children and their freedom from the workmen and women; for the preven-tion of the use of the millitary against labor in the settlement of strikes; for the free administration of justice; for popular government, including initiative, referendum, proportional representation, and the recall of officers by their constituants; and for every gain or advantage for the workers that may be wrested from the capitalist system, and that may relieve the suffering and strengthen the hands of labor. We lay upon every man elected to any executive or legislative office the first duty of striving to procure whatever is for the workers' most immediate interest, and for whatever will lessen the economic and political powers of

But, in so doing, we are using these remedial measures as means to the one great end of the co-operative commonwealth. Such meas ures of relief as we may be able to force from capitalism are but a preparation of the workers to seize the whole powers of government, in order that they may thereby lay hold of the whole system of industry, and thus come into their rightful inheritance.

To this end we pledge ourselves, as the party of the working class, to use all political power, as fast as it shall be entrusted to us by our fellow-workers, both for their ultimate and complete emancipation. To this end we appeal to all the workers of America and to all who will lend their lives to the service of the workers in their struggle to gain their own, and to all who will nobly and disinterestedly give their days and energies unto the workers' cause, to cast their lot and faith with the Social-Democratic party. Our appeal for the trust and suffrages of our fellow workers is at once an appeal for the common good and freedom, and for the freelom and b'ossoming of our common preparing the soil of the economic

### FOR OUR NEW READERS:

THIS COUNTRY is made up of working people, both industrial and gricultural, but is ruled by the capitalist class, which is numerically mail. Being in control of the government, it runs that government in the interests of its class and against the interests of the working class, which is the people. We Socialists believe that the country should be ruled by the people in the interests of the people. That It why we established a government in the first place. We want the people to own it so that the political power can be used to begin the merch to the co-operative system, called Social-Democracy. All the means of existence are now owned by capitallats, and yet the capitalist class makes up only bout 12 per cent of the population, and a mere ONE PER CENT of It OWNS OVER HALF THE WEALTH OF THE NATION! The neans of existence should be owned by the collectivity in order that the benefits should go to ALL instead of to a FEW.

Under the capitalist system the vast majority of mankind must sell themselves to the capitalistic owners of the means of production and ilstribution in order to live and to live miserably at that.

The nation owns the post office and everybody is glad that it does. It ought to own all the trusts so that all may enjoy the benefits. It ought to own all the means of production as soon as such industries have become sufficiently chacentrated.

To bring this about the people—the workers—must get control of the political power. The Social-Democratic party (known as the Bodatist party in some states, and nationally) is organized to bring this about—this and the abolition of capitalism. It insists that the industrious cless shall be the wealthy class, and the idle class the poor class —but it will, in fact, abolish the poor class altogether. The Social-Democratic movement is international, but we expect it to achieve suc-cess in the United States first, because the capitalist system, which we mean to uproot, is best developed here. To show you that your interests lie with us we print the followings

Program of International Social-Democracy:

- Collective ownership of all industries in the hands of Truste and Combines, and of all public utilities.
- Democratic management of such collective fadustries and utilities. Reduction of the hours of labor and progressively increased Remu-
- State and Netional Insurance for the workers and honorable rest
- The Inauguration of public Industries to safeguard the workers
- against lack of employment.

The case of Comrade Wladilinski, who was arrested on May t for carrying a red banner in the May Day parade, was called last Wednesday morning. After Comrade T. J. Morgan slowed the court the permit to hold the parade the judge dismissed the case and ordered the banner returned to Comrade Wladilinski. The banner in question has been the Socialist party emblem of the Polish Socialists since 1880, and is prized very highly by our Polish comrades. The great mass of the people of America will yet learn that the red flag is not an emblem of anarchy, but the emblem of order and universal brotherhood. Let us hope that the next May Day the city authorities will main the difference between anarchy and Socialism. Chicago So-

This case reminds us of another that happened in Chicago back in 1808, if our memory serves aright. A man got up on the pedestal of a monument on the lake front and began to recite the Declaration of Independence. Up rushed an administration policeman with uplifted club and ordered him in the name of the law to cease at once or have his head cracked open. "I'll have none of that Annarchist stuff round here," he said.

General Labor Notes.

The labor papers of the country are denouncing the Citizen's Alli-ance and the Manufacturers' Associations in heated terms because they have not contributed a penny the San Francisco sufferers, while the unions have sent many thousands of dollars. Parry, Post & Co. are saving their dirty dollars to smash unions with.

In 1897 the total membership of the United Mine Workers of America was 9,731. When the first agreement was made in Illinois in 1808 the membership of the organization throughout the entire country was 32,902 and the membership in Illinois did not exceed 5,000. For the state.

The Tobacco Workers' International Union is now engaged in an active campaign against the tobacco trust. The tobacco workers are not very influencial in the North, but in the Southern States, where, the large factories are located, the international union, which is one of the oldest in the country, boasts of a membership of 10,000.

of twelve clubs in line, intends to unionize bowling, boxing, football, track and field athletics. The purchase of a large park, in which to hold athletic meets and contests, is also planned.

The legislative assembly of British Columbia has passed a law which provides that miners shall not be retained underground for a longer period than eight hours. Deducting the time lost in entering and leaving the mines, the actual workday will be less than seven

A late dispatch from Scranton says that the anthracite miners, since they were unable to gain anything from Baer Co., have decided to enter politics.

In March the A. F. of L. chartered one state branch, six city central bodies, 11 federal unions. This does not include the local unions chartered by rational unions.

Resolutions on Trade Unions Passed by last National Socialist Convention.

The trade and labor union movement is a natural result of the capi-talist system of production and is necessary to resist the encroachments of capitalism. It is a weapon ments of capitalism. It is a weapon to protect the class interests of labor under the capitalistic system. However, this industrial struggle can only lessen the exploitation, but it cannot abolish it. The exploitation of labor will cease only when the working class shall own all the means of production and distribution. To achieve this end the working class must consciously being class must consciously become the dominant political power. The organization of the workers will not be complete until they unite on the political as well as the in-dustrial field on the lines of the class struggle.

The trade vuion struggle cannot

have been enrolled in the union.

Forty boiler makers, and helpers attain lasting success without the political activity of the Socialist party. The workers must fortify party. and permanently secure by their political power what they wrung from their exploiters in the economic struggle. In accordance with the decisions of the International So-Calist Congresses in Brussels, Zurich and Lundon, this convention reaffirms the declaration that the trade and labor minons are a ne-cessity in the struggle to aid in emancipating the working class, and we consider it the duty of all wageworkers to join with this mevement. Neither political nor other differences of opinion justify the division of the forces of labor in the industrial movement. The interests

State convention in Milwaukee, Saturday, June 2.

Local Milwaukee received and

accepted 79 members at the last meeting of the County Central Committee. Going back fast, n't we!

Kenosha cal reports a good meeting, and ay, May 13. Com-rade W. A. Gaylord spoke. The local contributed \$5.00 to the campaign fund and sent out its "ward captains," as they call them, in the eight wards to collect pledges and cash on the new subscription lists for the fall campaign. They will re-port next week. Kenosha is thus the first local to get busy raising funds for the fall campaign. Watch the others as they line up for the fray. The Finnish Socialists of Wis-

consin held a state convention at Milwaukee, Sunday, May 13. Delegates were present from all of the Finnish Socialist locals in the state of Wisconsin. There are six at present, — Racine, Kenosha, Superior, Iron Belt, Milwaukee, Clifford. These comrades are a determined group of workers. They have arranged to hire an in-terpreter who shall translate all letters sent out by the state headquar-ters into the Finnish language and

The Finns of this local furnished four of the candidates on the city ticket in the recent election. One of the comrades was arrested recently for distributing Socialist papers on the streets in Superior. Immediately a great crowd gathered around and the descend for the streets are as the demand for the papers was so great, the comrades couldn't supply The police made us at least 100 the police made its at least 100 more votes. The comrade was taken to jail but finally released. The police are doing good service for Socialism. Hope they'll arrest some one else for distributing Socialist.

Comrade Gaylord for a series of conferences and meetings for a whole week from May 21 to 26.

The Finnish local in Superior started a year ago with 15 members and it now has 40, and the contrades promise to make it 60 within the next two months. They holo regular propaganda meetings every month and hope to be strong enough in another year to build their own hall. their own hall. Green Bay comrades are also to

### The Campaign.

There are at least a half dozen natters relative to the fall campaign that every local should take up at once, without a week's delay.

When you consider, what the party means to working men, it is Vorwaerts Singing Society, astonishing that any man who is Basket Picnie, Sunday Aug. 26, a Socialist does not lie awake nights Grenenwald's Park 32nd and Fond thinking how he can help fight the

How can any manewho is a reguout of the party organization? Of course in some cases it would mean the loss of a job, and then the matter is easily understood. But in any other case, IT IS TO BE EX-PECTED that Social-Democrats will fight for their own.

We know of some men who be-lieve in Socialism, but insist on working alone, on the guerilla plan. A guerilla is a person who in time of war refuses to enlist in either army, but fights on his own hook, for the side in which he happens to be interested, and when caught plays the hypocrite. Don't be a guerilla, unless you have to guerilla, unless you have to.

And there are a few, who in the last few months have been trying to make out that they are being taxed very heavily for the keeping up of the movement. Now it is rue that a few of the comrades are paying more than their share of the necessary funds to keep up the party movement and the propaganda literature: but these who are actually paying heavily are not as a rule those who are doing so much

talking. In proportion to the benefits of the movement and the actual re-sults accomplished, the average member, to say nothing of the average voter, is contributing a very SMALL amount. The expenses of the spring campaign in Milwaukee were a little over \$3000. What does that amount to among the multitude of men that are connnish comrades from Iron Belt nected with our movement, directly

### Planning a Great Campaign.

We ought to have three organizers at work for the summer and fall Heretofore we have never been able to give locals the speakers and organizers they needed, because we gates to the state convention to be only had one organizer and he couldn't be in a dozen places at

> So we want three organizers That's one thing.

We have one organizer already. When we get the increased state dues that will help considerable, referendum to raise the state dues and we believe the national office owes it to us to give us one of the national organizers for a while. If we get that, it will make the third.

Another thing greatly to be desired is that we should be able to do our campaign work without making a big bad debt to burden the party afterward. Heretofore we have generally made our campaign If you haven't received cards, write expenses and paid the debts afterward. Now, why not raise a campaign fund before and during the campaign and come out clear of debt?

We are going to try to do it. Two years ago the party raised and speut \$5,000 in the state campaign. \$3.500 of that was raised after election was over. Isn't it better to raise the money beforehand?

There are also other reasons for immediate action in this matter. The increase of dues will doubtless carry, but even if it does it will not go into effect, until the beginning of the second quarter and that wil mean no returns from this until about the middle of July.

Upon the present basis there are

practically no funds at all available for the purpose of state organiza-tion. The Milwaukee comrades have just finished a campaign that cost them \$3100. A few of the state locals also had campaigns for which they raised some funds. But for the geater part the comrades have been giving little or nothing for state organization work, or to start up the work of state organization. And besides, we must have literature printed ready for free

distribution in new territory to make new converts out of which new locals can be organized by and by. So we must boom the campaign Every comrade should get his name on the list for as much as he can afford to pay. And as the need is especially great just now, all who can should send in cash sub-

scriptions at once. Those who can give only a part should make a regular monthly contribution from now till after election. In this way the immediate cash contributions should help us push the work through May and June and the increase in dues and the later pledges on the campaign fund would provide for the work in July and on to the end of the

campaign.

Remember, comrades, that the greatest need is right now. The months of July to November, and on, are already better provided for than the immediate present.

section of the city was defeated.

Alderman Melms introduced two notable and timely resolutions in the city council last Monday afternoon. One provided for the establishment of a municipal milk supply, and the other for a corps of city veterinarians who shall inspect all cattle from whom milk is supplied to city users, every thirty days, no dealer to be permitted to sell milk in the city who refuses to submit to such inspection, even where his dairy is located away from the city.

The only objection that can be raised to these

measures is the question of expense. To some people, trained in the dollar-grubbing school of experience, dollars are more vital than human life itself. But it is just this sort of spirit that has made it necessary to resort to health measures at all. It is dollars that drives the Armours and their kind to deodorize seymour. Delegates elected to the meat, putrid it and spice it and dye it and work it up into sausage—for you or me or anybody else to buy in the market, because it International Typographical union meeting to be held at Colorado Springs, Col., in August were Henry Ohl, Jr., and William Benseman. John Doyle was elected to the eight-hour conference to be held at Terre Haute, Ind., in June, and Hugh Carney and Walter Fisher were elected delegates to the Wisconsin State Federation for the Wisconsin State Federation of the Wisconsin State Federation of the Wisconsin State Federation of the Springs of the Missing In th

But these two measures, as indicated above, ought to have many friends just at this time. The community has been viewing the Tuberto the Wisconsin State Federation culosis Exhibit! It has seen some awful things there-fresh samples of diseased meat from the packing bouses at Cuilahy, the very sight of which takes one's appetite away. The se samples show that cattle are quite prone to tuberculosis, cancer, gangrene, and so on. The thought is disturbing in the extreme. The people of this city are eating diseased meat every day and drinking diseased milk every day—no wonder human tuberculosis has been on the increase, and cancer

The Weiner Dry Goods Co. is now located at 948Kinnickinnic av., lisplaying a full line of Dry Goods, It has been simply impossible for the health authorities, with the dillinery and Notions and are oflimited resources at their command, to protect us from this deadly peril. It has gotten so bad that the exposure has finally had to come -through the Tuberculosis Exhibit.

> Inspect the cattle if you want to, but don't bankrupt the city with city dairy! we hear someone say. But the pure milk question is the ore important of the two.

> Last Fall the state veterinarians had an exhibit at the State Fair and they killed a cow that had been confiscated in Cudahy. They showed the public what the critter looked like—on the inside. On the outside it simply looked like a poorly-fed cow, and not necessarily diseased. But on the inside it was found to be filled with the tubercles of tuberculosis-its lungs so thick with them that they looked maggotty. Worse yet, the inside of the cow's udder was dripping and "crunmy" with the same sort of disease. AND A POOR LITTLE BABY HAD BEEN "CAREFULLY"REARED ON THE MILK OF THIS PARTICULAR COW! Try to take in the horror of that

> In 1896 the city of Rochester, N. Y. established a municipal dairy, in order to try if possible to check the terrible infant mortality that is found in every city where poor peopleilive. The city herd was under strict inspection and every cow had to pass the tuberculin test. The milk was sold in sterilized bottles, in the poorer districts. for two cents a pint. What was the result? The death rate among babies dropped immediately from 640 to 440, a decrease of about ONE THIRD. The poor little babies "never did have any show nohow!" if you will permit a pathetic joke. If the supply of milk had been still more extensive no doubt many other precious little lives night have been saved and parents spared the sterribe bereavement which the loss of a little flower in the family circle causes.

These Rochester figures were quoted by Dr. Schulz, the Health Commissioner, in his report in 1898, and he advocated a baby milk dairy for Milwaukee, but our people had their sainds on dollars and did not heed. We have today a private company that supplies scrupulously clean and pure milk for those who wish to safeguard the labelee from infection but it is only a lifescent for the labelee from infection but it is only a lifescent for the labelee from infection but it is only a lifescent for the labelee from infection but it is only a lifescent for the labelee from infection but it is only a lifescent for the labelee from infection but it is only a lifescent for the labelee from infection but it is only a life to the labelee from babies from infection, but it is only a lifesaver for the rich. The price is double that of ordinary milk. It is a case of you common babies keep away—fate will take care of YOUR case, all right.

For a beginning, a herd to furnish milk for the babies could be purchased. But it must be borne in mind that the older people grow the more liable they are to be attacked by disease. During childhood we are nearer to nature than later on. Children are at the vigorous time if life. Later they have less resistance to disease germs, the doctors tell us. Look out for the babies, but consider the grown people also. We must save the health of the people. And so we must have a

But it appears that in the present case the Equitable life insurance company offered as charged, was in having a number of the anti-Stiglbauer circulars in to pay over \$2,000 to the LaFollette his place of business during the campaign fund provided the insurance commissioner would render a decision favorable to its interests, and I is charged that Secy. of State Hauser took the proposition to Inmade up in large part of superinhandy in the campaign against Congressman Babcock. Mr. Houser denied the charges contained in Mr. Host's testimony, but admits that he suggested in 1903 that the insurance companies should be approached for campaigns should be approached for campaigns against Congressman Babcock. Mr. Houser denied the charges of the stricken off by the Stiglbauer side.

The complaint dealt entirely with the affidavit in a campaign circular, sworn to by James Doetch, who charged these in that Stiglbauer had proached for campaign money. Unfortunately, the trail of self-seek-ink politics is over the disclosures. In fact Mr. Houser charged as much before the insurance investigation committee where the testigation committee where the testimony was given. It is claimed that

THE WELLINGTON PIPE offers two important advantages: The well of the bowl collects the saliva and thereby leaves the tobacco dry to the last. The peculiar shaped mouthpiece permits the tongue to rest easily underneath the curve, and the upward boring of the draught hole compels the smoke to pass over the tongue, and thereby does not irritate any part of the smoker's mouth, which draw-back is usually experienced in an ordinary pipe. The Wellington pipe smokes cool and pleasant, because of the above mentioned advantages. The pipes are made by the best skilled workmen, the wood is of the best selected briar root and the mouthpiece is of the finest quality solid vulcanite.

Henrietta Crosman comes to the Davidson Thursday, Friday and guarding it all these years and only now spring it when Houser is campaigning for a renomination. The sheep and the goats are pretty well mixed up together in the LaFollette party.

A most astonishing verdict was redered in the District Court on Tuesday in the case of Comrade J. J. Ecklemann, against whom criminal proceedings had been instituted by Ald. Stiglbaner for libel.
